

Dear Sir/Madam

January 2019

EU Exit – Contingency Planning

This is certainly unknown territory for the whole of the UK and there may be some turbulence and turmoil.

However FLA are in a robust position to act quickly and respond to any challenges, we are monitoring the situation on a daily basis.

We will be working closely with our suppliers to ensure that they too have taken appropriate action to alleviate any setbacks and find alternative solutions.

Although there may be a rocky crossing for a few months we are confident that we can continue to supply our customers in the same way that we pride ourselves upon.

If you wish to discuss any matter in more detail please contact us.

Ian Francis

Managing Director
